Onkyo TA-2060 3 head tape deck - Repair & Maintenance

Since i'm maintaining my hi-fi system, I might as well sort out my Onkyo TA-2060 3 head direct drive tape deck. Since it had some issues with wow and flutter when recording. In this episode I figure out how to replace the belts and so some recording tests.

Crystal Clear PAL Amiga Emulation on a 16:9 Display - Ultimate Edition

If we try to use Automatic Scalling to automatically scale all the games to full frame, it produced a garbled font effect, and is not 1:1.

I never realised this because I always had the Bilinear Filter switched on, which hides those screen glitches. Without the filter, my mistake was clear to see.

Ms Mad Lemon: Amiga 600 Repair & Recap

My beautiful Amiga 600 had gone faulty and refused to boot, it was stuck in a boot loop with a black screen showing constantly and the caps lock light constantly on. I did a recap on this machine and then started off fault finding with the SIDbox team (My lovely friends) in the end we fixed the issue! 🤖)
